

CRAFT BREWED BEERS

Sampler \$6.50

A two ounce sample of every house made beer.

Texas Blonde 12 oz. \$3.75 Pint \$4.75

This easy drinking, blonde session beer is fashioned after the famous Kölsch ales of Cologne, Germany. Although it is an ale, it is fermented very cold, and exhibits the clean character of lager beer. The beauty of this beer lies in the simplicity of its ingredients: pure German pale barley malt, a touch of malted wheat, and all noble hops. Prosit!

Vienna Lager 12 oz. \$3.75 Pint \$4.75

A delicate, well balanced & medium bodied lager brewed in the Viennese tradition with a portion of lightly roasted malt. Very refreshing and easy to drink!
*World Beer Cup 2008 - Vienna Style Lager
Gold Medal Winner!!!*

Cowtown Brown 12 oz. \$3.75 Pint \$4.75

This English style brown porter is brewed with a base of Golden Promise pale malt, the Scottish equivalent of England's prized Maris Otter malt. The Scots claim its nutty, crackery taste is superior; and it is used by many famous scotch distilleries including The Macallan. The restrained use of chocolate, brown and crystal malts lends a soft roast and cocoa flavor which melds perfectly with the herbal notes of Styrian Goldings hops. At 4.7% ABV, it is the perfect session beer.

Maibock 12 oz. \$5.25 Pint \$6.25

Traditional dark bock beer is served during the winter in Germany. Upon arrival of spring and warmer weather, brewers release Maibock, or spring bock. Lacking the roasted, darker malts, this lager beer is deep golden in color and malty. The sweet malt is kept from being overwhelming with moderate bitterness, hefty strength (7.8% ABV), and moderate spicy hop flavor and aroma from Bavarian Hallertauer hops. An extended lagering period gives this beer its exceptional smoothness and drinkability.

Altbier 15 oz. \$5

"Old beer" is the pride of Dusseldorf, Germany. Ours is brewed using all German malts and hops and an authentic yeast strain originating from a small pub in Dusseldorf. This unique ale yeast ferments very cold, creating a crisp beer while accenting the sweet flavors of the malt. Our version finishes with a fairly assertive, yet pleasant bitterness derived from the famous Hallertauer hop.

Centennial IPA 12 oz. \$5.25 Pint \$6.25

"India Pale Ale" is brewed in the tradition of the strong English colonial ales of the 18th & 19th century. This I.P.A. is brewed using Centennial hops grown in the northwest United States. These hops are intensely aromatic, contributing aromas and flavors of pine and grapefruit. While the hops are the showcase, this ale has a solid malt body with mild caramel and fruity flavors to help balance the intense bitterness and hoppy character. (8.0% ABV)

Smokestack Stout 12 oz. \$4 Pint \$5

Holy Smokes! Brewmaster Jamie spent an entire afternoon smoking 120 lbs. of barley malt on his BBQ pit with apple wood. This smoked malt was used as a portion of the mash, contributing the mellow, sweet and pleasant aromatics of this particular fruit wood. The use of dehusked black roasted malt contributes the hearty flavors of coffee, espresso and chocolate, while lending the beer an inky black color.
